7.2.2.1.1.1

The first part of the document describes the general structure of the system. It is divided into several main sections, each with its own set of sub-sections. The first section is the most detailed, covering the most complex parts of the system. The second section is a summary of the first section, providing a high-level overview of the system's architecture. The third section is a list of the components of the system, including their names and functions. The fourth section is a list of the interfaces between the components, including their names and the data they exchange. The fifth section is a list of the external interfaces of the system, including their names and the data they exchange. The sixth section is a list of the internal interfaces of the system, including their names and the data they exchange. The seventh section is a list of the external interfaces of the system, including their names and the data they exchange. The eighth section is a list of the internal interfaces of the system, including their names and the data they exchange. The ninth section is a list of the external interfaces of the system, including their names and the data they exchange. The tenth section is a list of the internal interfaces of the system, including their names and the data they exchange.
